

Capability Statement – GS5, LLC

Core Competencies

GS5, LLC provides Advisory and Assistance Services and technical products to a range of clients across Federal and commercial markets. We **optimize client investments** through cost-saving strategies and risk reduction, **without sacrificing quality**. GS5 supports the Warfighter through a variety of contracts with DOD, DHS, the Intelligence Community (IC), and commercial clients.

| | |
|---|---|
| Intelligence Research and Analysis | A recognized and significant impact on the effectiveness and survivability of American Warfighters, especially in their fight against Improvised Explosive Devices (IEDs) |
| Engineering and Technical Services | Streamlined development, quality products on time or ahead of schedule, meaningful documentation and test results, improved operational efficiency, quicker decision reviews, decreased downtime, and innovative technical capabilities |
| Acquisition and Program Management | Improved operational efficiency; defensible budget requests; reduced risk; cost savings for the government and the taxpayer |

Representative Past Performance

| | |
|----------------------------------|---|
| Intelligence | <p>JIEDDO Directed Analysis Support Services (DASS) Task Order 1: Open-Source Augmentation and Analysis Cell (OSAAC) and Strategic Interplay Exploration (SIE) [8(a) prime]</p> <p>GS5 provides JIDA (fka JIEDDO) with a capability to perform native-level-proficiency target-language OSINT research guided by a dynamic assessment of global IED events, integrated with the SIE network role-playing M&S system and external SMEs, to rapidly produce RFS responses, outcome videos, and open-source assessments not otherwise available.</p> |
| Engineering and Technical | <p>JIEDDO Technology and Systems Engineering (TSE) TO1 (IT O&M), TO2 (GEP), and TO3 (NID SIL) [sub]</p> <p>GS5 provides expert support to JIDA in the areas of: T&E and web/portal maintenance for COIC IT O&M; IT and knowledge management support for the Global Enterprise Partners (GEP) program; and software development, software security support, and program management and IT support (testing, M&S) for the Net-Centric Innovation Division (NID) Systems Integration Laboratory (SIL).</p> <p>NGIC AF/PAK Systems Engineering and Technical Assistance (SETA) [sub]</p> <p>In support of NGIC AF/PAK programs and the Counter Insurgency Targeting Program (CITP), GS5 provides BAH with requirements management, configuration management, risk management, SETA, user acceptance testing and other test support, QA, and technical evaluation. The team consistently receives high praise, from both the prime and the customer, for the quality of its efforts.</p> |
| Acquisition | <p>DISA Global Command & Control System – Joint (GCCS-J) [8(a) prime]</p> <p>Under this and other prime and subcontracts, GS5 has provided program management support to DISA GCCS-J, including contract-level and task order management, financial analysis (OMB IT300, POM, BES, PB, etc.), GCCS-J milestone cost analysis documentation, administrative support, requirements management, risk management, post-implementation review (PIR), configuration management, and program management analysis. GS5 also built the Joint Management Oversight System (JMOS) tool for DISA (and also later adapted it for DHS US-VISIT).</p> |

Values: 5 Stars

We optimize client investments through cost-saving strategies and risk reduction, without sacrificing quality.

Differentiators

- ✓ Proprietary tool development supporting the IC (JIDDO-COIC, DISA, and DHS)
- ✓ Longstanding relationship with clients and exemplary record of service
- ✓ PMP/DAWIA certified management personnel
- ✓ TS Facility Clearance and approximately 90% cleared staff
- ✓ Rapid hiring process (often two weeks or less) – 50% faster than industry standard
- ✓ Flat organizational structure → direct access to senior management → transparency, continuity, time savings, and rapid resolution of issues
- ✓ Vehicles: Navy SeaPort-e, JIEDDO DASS, JIEDDO CSS
