

GS5, LLC – Intelligence

Capabilities

GS5, LLC provides Open-Source, All-Source, and Cyber research and analysis services to the Federal government, chiefly in support of the global Counter-IED fight.

Capabilities	Benefits
✓ Multi-intelligence analysis to include OSINT, All-Source and SIGINT	✓ Rapid and relevant response to Warfighter Requests For Support (RFSs)
✓ Open Source and Cultural Research	✓ Native-language research & analysis in target AOIs/AORs
✓ Weapons Technical Intelligence (WTI) Analysis	✓ Rapid and relevant response to emerging threats & techs
✓ Biometric Identity Intelligence Resources (BI2R) Operations Support	✓ Subject matter expertise to support biometric data standards & analysis
✓ C-IED tool training and POI development	✓ Rapid access to open-source and Govt. technical IED intel
✓ Global IED Data Management	✓ Immediate access to & analysis of global IED events
✓ Classified and unclassified conference support	✓ Rapid access to world-class industry & academic SMEs for live or virtual conferencing, role-playing, or training
	✓ Capacity for ~4 events/month
✓ SIE role-playing M&S network system	✓ Rapid assessment of multiple courses of action
	✓ Hollywood-quality "outcome videos" deliverable to senior leadership or directly to the Warfighter

Relevant Past Performance

Contract	Prime
JIEDDO Directed Analysis Support Services (DASS) MA IDIQ TO1 – Open Source Analysis Augmentation Cell (OSAAC) and Strategic Interplay Exploration (SIE): GS5 provides a capability to perform native-level-proficiency target-language OSINT research guided by a dynamic assessment of global IED events, integrated with the SIE network role-playing M&S system and external SMEs, to rapidly produce RFS responses, outcome videos, and open-source assessments not otherwise available. TO3 – Cyber C-IED Analysis Team (CCAT) and Global IED Database: GS5 provide actionable intelligence and operational information to enable counter threat network operations and integrates unclassified (open source) and classified C-IED data in a fused, community-recognized, and authoritative Global IED incident database of correlated and de-conflicted data.	[8(a) prime]
Comprehensive Support Services (CSS) TO 1: Weapons Technical Intelligence (WTI) GS5's team supplies JIEDDO WTI with analytical, scientific, administrative, and training support in: Program Analysis & Information Sharing, Biometrics, Forensic Analysis, Electronic Engineering, Explosive Chemistry, Administrative Support, Policy, Doctrine, and Strategy, Training Support, Analysis, and Theater Operations Support.	[8(a) prime]
NGIC Systems Engineering and Technical Assistance (SETA) GS5 provides SETA to NGIC, including Analysis of Alternatives support to the Biometrics Intelligence Program (BIP).	[sub]
JIEDDO Information Sharing and Advanced Collaboration (ISAAC) GS5 provided operations and intelligence analysis for the ATAC Systems Integration Laboratory, developed the UDOP, developed All Source, SIGINT and MASINT analytical products, and conducted technology insertion, integration, and training.	[sub]
USMC MARCORSYSCOM MAGTF C4ISR PM Intel Support GS5 supplies integration, programmatic acquisition support (test & other plans; documentation; architecture), and DCGS support to PM Intel, which delivers integrated and interoperable intelligence capabilities to the Operating Forces.	[sub]

Values: 5 Stars

We optimize client investments through cost-saving strategies and risk reduction, without sacrificing quality.

Differentiators

- ✓ Integration of cultural and foreign language aspects within intelligence products
- ✓ Provide a variety of intelligence analysis products to RFS, ISR collection
- ✓ Social Media Exploitation & Cyber Persona Development experience
- ✓ Full video production capability
- ✓ Computerized immersive simulation and war gaming capability
- ✓ Comprehensive knowledge of IEDs to include global hotspots and insurgent TTPs
